Career Objective

Dedicated Software Developer with strong programming fundamentals and backend development skills, along with exposure to AI technologies. Seeking a challenging role where I can contribute to building reliable, scalable software solutions and grow within a professional, technology-driven organization.

Education

- BE (Hons.) - Electronics and Communication Engineering & Honors in AI CGPA: 8.28
• IFET College Of Engineering, Villupuram, Tamil Nadu Nov 2022 - May 2026

Skills Summary

- Languages: Java, C, Python, SQL
- Frameworks and API: Spring Boot, React, Tailwind CSS, RESTful APIs, JDBC, Fast APIs
- Developer Tools: Git/GitHub, PostMan, Lovable.dev, PostgreSQL, MySQL, Eclipse, Jupyter Notebook
- AI: Foundations Of AI, Agentic AI, Generative AI, MCP Server, LLMs, LangChain
- Course Work: Problem Solving (SkillRack), Networking Fundamentals (Cisco), Introduction to Industry 4.0 and Embedded Systems (TVS Training Center)
- Interpersonal Skills: Leadership, Industrial Visit (IV) Coordinator, Event Management, Time Management

Internship Experience

Altruisty - A Software Company Chennai
Frontend Developer Internship (Remote) Jan 2025 – Mar 2025

- Completed training in Python Full Stack Development, gaining hands-on experience in full-stack web application workflows using Django and Tailwind CSS.
- Developed and integrated frontend for a Code Debugging and Quiz Challenge platform using Django, Vite, and Tailwind CSS.

LayerCodes - A Software Company Villupuram
Web Development Internship (On-Site) Jul 14 – Aug 14, 2024

- Gained practical experience in website development and web hosting.
- Built mini-projects and deployed them on platforms including Vercel, Firebase, and Netlify.

Projects

- **IOT-BASED SEWAGE GAS MONITORING SYSTEM (ESP32, MQ Sensors, Supabase, React, REST API)** **Url:** Developed an IoT-based sewage gas monitoring system to detect hazardous gases in real time using ESP32 and MQ gas sensors. Built a custom cloud-based IoT platform, enabling real-time data ingestion, live monitoring, status indication, historical analysis, and visualization through REST APIs. (2024 - 2025).
- **QUERY GEN AI -AN INTELLIGENT SQL ASSISTANT (FastAPI, React, MySQL, OpenRouter, Python, NLP)** **Url:** Designed and developed an LLM-powered Natural Language → SQL system using FastAPI and OpenRouter, enabling non-technical users to query MySQL databases safely. Implemented prompt constraints and read-only execution to prevent malicious queries and ensure data security. (2025)
- **SHOPPING MALL OWNER MANAGEMET MODULE (Spring Boot, PostgreSQL)** **GitHub:** Developed the Shop Owner Module for a Shopping Mall Management System, focusing on managing and approving new shop requests. Designed a clear workflow to track request status and streamline the approval process. Improved overall request handling by organizing data flow and ensuring smooth communication. (2025)

Certifications

- Java FullStack: "Core Java, React, Spring Boot, PostgreSQL, REST API": Issued by TNS India Foundation.
- Java FullStack: - "Logic Building, Problem Solving, Java Fullstack workflow" : Issued by Wipro-TalentNext.
- CCNA: "Introduction to Networks", "Switching, Routing, and Wireless Essentials" : Issued by Cisco.
- SQL: SQL Basics Queries: Issued by Skillrack.

Achievements

- **Finalist:** Smart India Hackathon 2023 – Hardware Edition (Top 1,028 ideas out of 50,000+), Noida.
- **1st Prize–Paper Presentation:** At National-Level Technical Symposium at Mailam Engineering Clg.
- **2nd Prize- Ideathon:** Achieved 2nd Place in the Intra-College Ideathon Competition.
- **3rd Prize-Paper Presentation:** At National-Level Technical Symposium at Velammal College of Engg.
